

Rotary Encoder with Switch Incremental output Hollow type

Discontinued

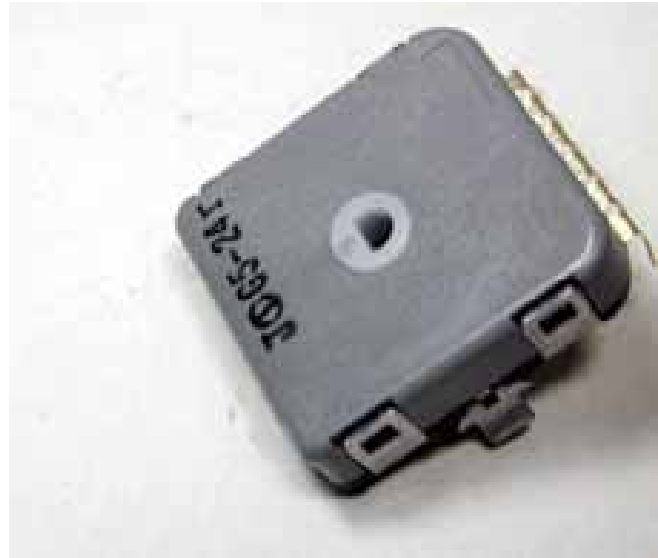

RE0201PVB

Feature

- Incremental output
- Low contact resistance
- No shaft
- Gray 2-bit 8 pulses type is also available.

Application

- Electric oven
- Dimmer

Specification

Output	GRAY code (5-bit)
Operating Temperature Range	-10 to 70
Rated Voltage	12V DC
Maximum Operating Current	10mA
Resolution	24 pulses/360 ° endless
Insulation Resistance	100 M min.
Total Rotation Angle/Travel	360 ° (endless)
Detent	24 detents 15+/-3 °
Torque	20+/-10 mN.m
Life (cycles)	10,000
Dimensions	21 x 21 x t = 8 mm
