

Ultra Long Life Potentiometer Hollow shaft

XV0711PVNSL-0B5K

Feature

- Half million cycles life high reliability.
- Hollow design allows desired shaft design to customer

Application

- Joystick application
- Game machine
- PDA

Specification

Operating Temperature Range	-10 to 70
Rated Power	0.01W
Maximum Operating Voltage	5V DC
Nominal Total Resistance	5K
Total Resistance Tolerance	+/- 20%
Resistance Taper	0B
Insulation Resistance	100M 250V DC
Dielectric Resistance	250V AC
Total Rotation Angle/Travel	300+/- 5 °
Rotation Torque	5mN.m max.
Life	500,000 cycles
Dimensions	7 x 7.5 x 4.1 mm
