

## Glass Type Polymer Dispersed Liquid Crystal

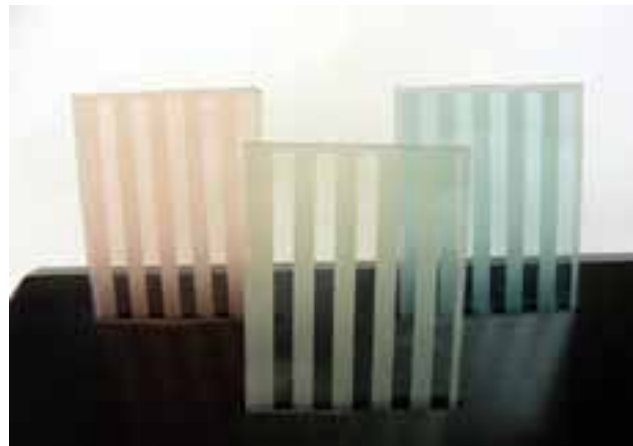

### Glass PDLC

#### Features

- "Frosted" and "clear" switching
- No need of mask
- Choice of "normally frosted" or "normally clear"
- High brightness and contrast
- Wide viewing angle
- Low cost

#### Applications

- Reception Message board
- Game machine
- Amusement
- Watch

#### Specifications

Viewing angle	Wide (70 ° min.)
Operating Voltage	5 ~ 10V AC
Current Consumption	300mA max/m <sup>2</sup>
Thickness	5mm
