

**Coded Switch
16 Position 7mm.
Very Heavy Torque**

TP7 P'Grid

Feature

- Heavy torque feeds back secure response of rotation
- Water proof type is available.

Application

- Radio Communication
- Roller friction + U-spring bring smooth feeling

Specifications

Operating Temperature Range	-20 to 70°C
Rated Voltage	5V DC
Rated current	1mA
Total number of code	16
Detent	16 detents 20+/-3°
Rotating torque	25 ~ 30 mNm
Life	30,000 cycles min.
Total Rotation Angle	300+/-5°
Water proof (Option)	1meter deep 30min.
