

Dual shaft Gang Potentiometer with Power Switch

TP76D00N

Feature

- Slim & Small size (7mm)
- Dual resistors and switch
- Water proof IP67(option)

Application

- Car audio
- Audio equipment
- Communication radio squelch

Specifications

Potentiometers

Operating Temperature Range	-20 to 70
Rated Power	0.05W
Maximum Operating Voltage	10V DC, 50V AC
Detent	Zero, Center only or 11 position
Total Rotation Angle	300+/- 5 °
Total Resistance Tolerance	+/- 20%
Resistance Taper	A, B, C (1K ~ 500K)
Rotating torque	40 mNm min.
Life	15,000 cycles
Size	7.7 x 9.35 x L = 14.5mm

Switch

Switch circuit	Rotary Switch SPST
Rated voltage and current	12V DC 0.5A
Stroke	0.5mm
Life	10,000 cycles min.
