

## Throat Microphone

### ETP-YE-101

#### Feature

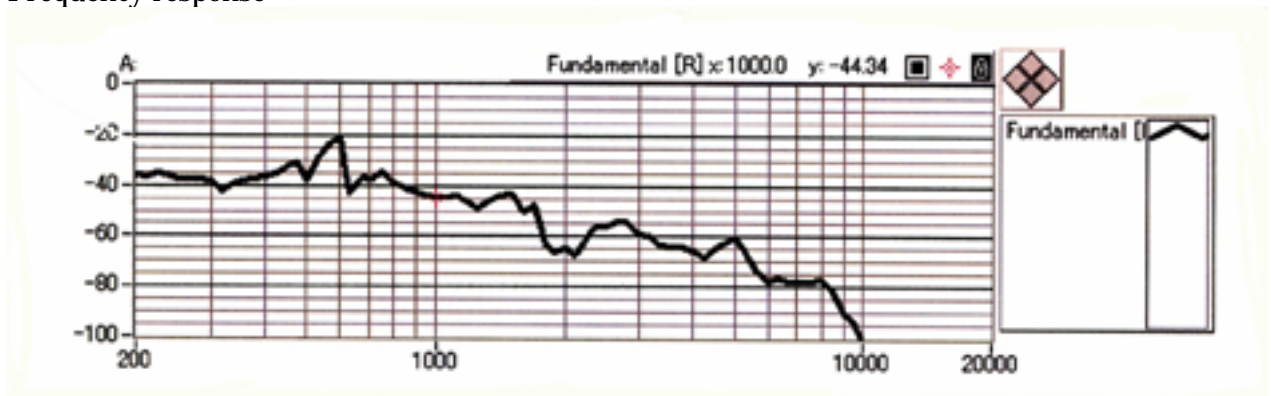

- Throat surface contact pick up.
- Drip proof.

#### Application

- Communication wearing in hazardous situation
- Extremely noisy environment communication

#### Frequency response

#### Specifications

|                        |                                     |
|------------------------|-------------------------------------|
| Rated Output Impedance | 1.1K +/-30% @ 1KHz 1mW              |
| Frequency Range        | 200Hz ~ 1500Hz                      |
| Output Level           | -37dB +/-6dB @1KHz (0dB=1V/0.063Pa) |
| Weight                 | 44g                                 |
